

Flashback 4

We always encourage revisiting concepts through other topics across the year. Flashback 4 is a series of quick questions covering something from the previous lesson, last week and then topics from earlier in the year – maybe even last year! Plus, True or False questions to get our children thinking.

It just takes a few minutes each lesson and is a way to recap and ensure essential skills are regularly revisited and retrieved to strengthen retention.

Count objects in 100 and read and write numbers in numerals and words.

1. How many pencils are there?
There are pencils.

2. How many bread rolls are there?
There are bread rolls.
How did you count them?

3. What number is represented?
numeral

True or False?

The objects have been sorted by type of shape.
