<b>Science:</b>	Working Scientifically Year 3: Forces and magnets	<u>Working Scientifically</u>  Ask relevant questions.  Set up simple, practical enquiries and comparative and fair tests.  Make accurate measurements using standard units, using a range of equipment, e.g. thermometers and data loggers.  Gather, record, classify and present data in a variety of ways to help in answering questions.  Record findings using simple scientific language, drawings, labelled diagrams, bar charts and tables.  Report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions.  Use results to draw simple conclusions and suggest improvements, new questions and predictions for setting up further tests.  Identify differences, similarities or changes related to simple, scientific ideas and processes.  Use straightforward, scientific evidence to answer questions or to support their findings	I can assess what I already know about forces and make a prediction.	I can observe how objects move on different surfaces.	I can observe that magnetic forces act at a distance.	I can compare and group materials that are attracted to a magnet.		I can predict whether two magnets will attract or repel each other.	
<b>Geography</b>	<b>PlanBee - Our European neighbours.</b>	Use maps, atlases, globes and digital/computer mapping	Lesson 1	Lesson 2		Lesson 4	Lesson 5		

	<p><b><u>Y3 Place knowledge: Contrasting country.pdf</u></b></p> <p><b>Locational knowledge</b> - locate the world's countries, using maps to focus on Europe (including the location of Russia)</p> <p><b>Place Knowledge</b> - understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country.</p> <p><b>Plans</b> <u>Our European neighbours</u></p>	<p>to locate countries and describe features.</p> <p>Name and locate the countries of Europe and identify their main physical and human characteristics.</p>	<p>I can locate Europe on a world map and find out about its features.</p>	<p>I can identify and locate countries in Europe.</p> <p>Lesson3</p> <p>I can identify European countries according to their features.</p>		<p>I can identify the major capital cities of Europe.</p>	<p>I can compare two European capital cities.</p> <p>Lesson 6</p> <p>I can find out about the human and physical features of a European country.</p>		
<b>D&amp;T:</b>	<p><b>To design, make, evaluate, improve - Structures: shell structures</b></p>	<p>Design, make, evaluate and improve</p> <ul style="list-style-type: none"> <li>• Design with purpose by identifying opportunities to design.</li> <li>• Make products by working efficiently (such as by carefully selecting materials).</li> <li>• Refine work and techniques as work progresses, continually evaluating the product design.
