Riverside Primary School

Curriculum Newsletter for Families: November 2026

Year 6

This half term our theme is...

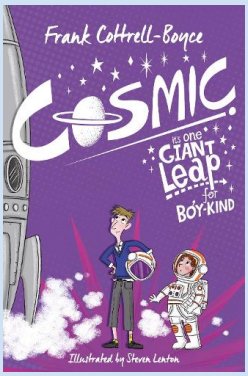

Stargazers

Welcome Year 6 to the second part of the Autumn Term and here is your curriculum update newsletter!

We would like to take this opportunity to tell you all about the exciting half-term ahead. This newsletter is where you can find out all about what your child will be learning over the coming weeks, along with some ideas and suggestions for some activities you could try to support their learning at home.

What are we learning during this theme?

We will be doing lots of learning to get our classes curious about the subject of Space. Your children will learn about how night and day occurs, the planets in the solar system and the movement of the moon. We will then study forces and complete a range of scientific investigations.

In English, children will write a close encounter story, using Alien Landing as a model to develop strong openings, purposeful dialogue and mysterious endings. They will then create a persuasive advertisement or brochure for a luxury space hotel. Our class reader is Cosmic by Frank Cottrell-Boyce. Reading lessons will use space non-fiction and Cosmic to develop inference, supporting answers with evidence, and prediction.

For PE the children will be undertaking lessons in yoga and hockey this half term. In design and technology the children will be applying their knowledge of pulleys and gears in making moon buggies. In computing, children will learn how to write, record, and edit multi-track audio to produce their own podcast, while exploring target audiences, copyright law, online advertising, and giving constructive feedback. Online safety will be woven through the unit, with a final Tech for Space lesson.

In PSHE, children will explore money and emotional wellbeing, being a critical consumer, gambling risks, spending influences and support with online financial harms. Our No Outsiders lesson uses ***Lubna and Pebble*** by Wendy Meddour and Daniel Egnéus to explore friendship, security and passing hope on.

Trips, Visitors and Experiences

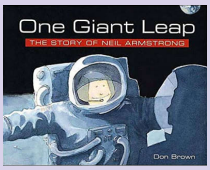

We have planned some exciting visitors and experiences which will help consolidate our theme this half term. We will welcome a travelling planetarium from Starlight Stem, where

children will be able to look up at the Milky Way and learn about our solar system. You can also find more information about our learning on our Medium Term plan and via our Knowledge Organisers, which are available on our school website: https://riversideprimary.co.uk/

How can you support your child at home?

Every week, your child will receive their usual home learning tasks of reading, spelling and writing/maths.

In addition to this, please find some suggestions below on how to support your child's learning. Why not pop to the local library and loan out some books that link to our theme?

Days out and things to do:	Books to read:	Things to watch:
Visit The Science Museum https://www.sciencemuseum.org.uk/see-and-do/exploring-space-gallery-tour Visit Southend Planetarium Southend Planetarium Make a solar system snow globe!
